

Western Red Cedar Shingle Program

SBC

SBC

Your source for Cedar Shingles

SBC the leader in quality natural and pre-stained Eastern White Cedar Shingles now also offers pre-stained Western Red Cedar Shingles. This new option positions SBC as the leading source for cedar shingles in North America.

No other substrate can rival the integrity of wood siding. Its texture, grain, structure and performance make wood the premium natural substrate for professional builders. SBC pre-stained products blend rustic charm with lasting durability. Every pre-stained shingle is made from high quality Eastern White and Western Red Cedar.

SBC's expertise and state-of-the-art proprietary coating dipping system using PPG/Olympic®, the leader in machine application coatings, provide you the perfect finish every time. Our cedar shingles are an ecological choice. They come from renewable resource and contribute to reduce atmospheric gas.

*When Only the Best Will Do,
Specify SBC!*

SBC Advantages

- Full warranty program (up to 25 years)
- Quick turn around and lead time
- Custom color capabilities (solid, semi-transparent and clear solution)
- Dehumidification kiln to help minimize cracking and tannin bleeding
- Exclusive dipping process for maximum penetration of stain in the wood and better stain mil thickness

SBC Western Red Cedar Shingle Program

*The Inspiring beauty of wood
with the uncompromising quality of SBC*

SBC

PRE-STAINED OPTIONS

SBC offers all grades of KD and pre-stained 18" western red cedar shingles, including Perfections, Resquared and Rebutted (R&R) and 5/8" Tapersawn Premium.

FINISHES	TYPE OF STAIN	NO OF COATS	WARRANTY ON STAIN ^c FOR SIDEWALL APPLICATION ONLY
Primed (clear or white/gray)	Oil / Latex (low VOC)	1	2 years (need to be topcoat within 60 days)
Bleaching Oil / Weathering Stain	Oil	1	No finish warranty - Aging products
Naturaltone Cedar (Olympic Maximum)	Oil	1	3 years against graying
Semi-transparent (Olympic colors) ^B	Latex (low VOC)	1	5 years against peeling and flacking
Solid colors (any colors) ^{A&B}	Latex (low VOC)	2 or 3	10 / 25 years against peeling and flacking

A : For best results, our solid color option include 1 coat of the PPG Seal Grip™ blocking primer (latex). This product provides maximum tannin stain inhibition.
 B : PPG Machinecoat™ 100% acrylic stain are low VOC. They are also mildew resistant, water-repellent and UV resistant.
 C : Failure to follow Cedar Shake and Shingle Bureau's installation manual will void the warranties. Some restrictions apply. See detailed warranties.
